Impact Teen Drivers

Impact Teen Drivers teaches the public about the number one killer of teens—car crashes. Especially crashes caused by reckless and distracted driving.

Each year, over 4,000 teens die from crashes and 400,000 are seriously injured. We want to stop distracted driving to save lives now and in the future.

Impact Teen Drivers' programs teach teens and others that crashes caused by reckless and distracted driving are 100% preventable. The program focuses on the importance of good decision-making behind the wheel. Participants experience quizzes, interactive tools, and real stories about teens whose lives were affected or lost due to preventable car crashes. Our goal is to connect with and motivate people to make positive change.

About Impact Teen Drivers Classes

Impact Teen Drivers has a variety of programs:

- **Elementary School Program**
- **Middle School Program**
- **High School Program**
- **Parent/Teen Workshop Program**
- **Coaches and Student Athlete Program**

Programs are taught by trauma center, fire/EMS, and law enforcement professionals.

Programs can last for 50 minutes to two hours or longer. Each program is designed for your needs.

The Goal

Impact Teen Drivers works with people who have been affected by reckless driving to spread messages that create change. The programs uses statistics and facts to educate participants. The goal is to save lives by encouraging good decisions for passengers and drivers.
