

How to Document: Infant Maternal Health

There are several ways to document Infant Maternal Health focus in Henry Ford.

Here are some tips to help. See screenshots for details. Please include individual documentation. How will maternal health numbers be pulled if combined with non-maternal health?

1. **Blood Pressure clinic.** Complete as normal, just add in the notes how many people you saw that were pregnant or one year post pregnancy. If you do any other activity under Screening that impact Maternal Health. Just add a note/comment.

2. **Food Pantries:** Most food pantries enter information in the (Screening, Nutritional section) or (support group, Food/Meals if they serve meals). If you have pregnant people that you are hosting, please include this in the note section. If you do or do not provide infant food or formula, please note that. This is valuable information

3. All other things you do for Infant Maternal Health: If there is not a good category to enter information in Henry Ford, such as for a diaper drive, Mother of Preschoolers luncheon, Table with fliers, Fliers posted on bathroom mirrors or stall doors etc. Choose: EDUCATION the description is MATERNAL.
- Put what occurred in notes.
