

Executive Health Program

Well-Being Starts Here

Get on the path to lifelong health: Take stock of your risk factors and develop a personal action plan for improvement—for yourself and those who depend on you.

An *Executive Exam* is no ordinary physical. Since 1990, our Executive Health Program has provided an advanced level of preventive care with a singular objective: *the restoration and preservation of optimal health*. Serving corporate leadership teams and health-conscious individuals alike, the program blends clinical expertise with focused and efficient patient care in one luxury setting.

Benefit from extensive one-to-one consultation with an entire medical team that includes an Internal Medicine physician (male or female) on the medical staff of Texas Health Harris Methodist Hospital Fort Worth, Registered Dietitian and Exercise Physiologist. The exam process averages just 3.5-5 hours to complete, and is typically accomplished in 2 time-efficient visits; or you may choose a 1-day option. Specialist physician referral with same or next day access may be arranged, as needed.

Now is the time to safeguard your health and live life knowing.

To schedule your Executive Health Physical Exam and Nutritional Analysis directly:
