

Texas Health Dietetic Internship Program

Program Details and Application

We are excited about your interest in the Texas Health Presbyterian Hospital Dallas's Dietetic Internship Program. Texas Health Presbyterian Hospital is one of 29 acute care hospitals owned, operated or affiliated with Texas Health Resources. Texas Health Resources is one of the largest faith-based, nonprofit health systems in the United States. Since its inception in 1972, our dietetic internship has provided an optimal learning environment and diverse training experiences to prepare our interns to become leaders in the dietetics community.

In-depth program details are included in this packet. After reviewing the material, please feel free to contact me. I look forward to your email.

Sincerely,

Bielca Soza, MS, RD, LD
Clinical Nutrition Manager and Dietetic Internship Director
Texas Health Dallas
bielcasoza@texashealth.org

Virtual Open House Session

To schedule a virtual session, email Bielca Soza at bielcasoza@texashealth.org and please specify the date in the subject line.

Dates:

December 3, 2021 2:30 P.M.

January 6, 2022 12:00 P.M.

Registration:

Virtual sessions are scheduled as Microsoft Teams meetings. After contacting the internship director, a confirmation email containing the meeting details will be provided.

Accreditation

The Texas Health Dallas Dietetic Internship Program is currently granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), 120 South Riverside Plaza, Suite 2190, Chicago, IL 60606-6995. Telephone: 800/877-1600, ext. 5400. www.eatright.org/acend Email: ACEND@eatright.org

Dietetic Internship Program Overview

- Challenging 9-month program
- Clinical/Medical Nutrition Therapy concentration with strong foodservice curriculum
- Begins in mid-September and ends in early May
- 6 interns accepted
- Interns match in April
- Tuition: \$4,800
- Meal Allowance: \$8 per day
- Work Schedule: minimum 40-hour work week
- Holidays: Thanksgiving, Christmas, New Years, Spring Break
- Graduate Credit offered: up to 9 hours for completing the requirements of the internship through Texas Woman's University (optional)

About the Dietetic Internship Program

Texas Health Presbyterian Hospital Dallas's Dietetic Internship Program prepares individuals for entry-level practice and success in future roles in the dietetics profession. This responsibility is accomplished through educational competencies, didactic classroom experiences and supervised practice reflective of the Standards of Education from the ACEND.

Program Completion

Interns are eligible to complete the program when all rotations and educational competencies have been satisfactorily met per competency requirements from ACEND. If an intern is weak or deemed incompetent in a area, additional learning experiences are planned. These experiences may include repeating a rotation. Program completion is expected by the end of the nine-month program with completion of a minimum of 1072 supervised practice hours. Maximum timeframe allowed to complete the Dietetic Internship Program is 13 months (150% of the program completion timeframe).

After completing the dietetic internship at Texas Health Presbyterian Hospital Dallas, the intern should be well-prepared to take the Registered Dietitian Nutritionist (RDN) exam and function as an entry-level registered dietitian.

A verification statement will be granted upon successful completion of the program and the program director will submit data to the Commission on Dietetic Registration, for registration eligibility for students to take the Registration Examination for Dietitian.

*Effective January 1, 2024, the Commission on Dietetic Registration (CDR) will require a minimum of a master's degree to be eligible to take the credentialing exam to become a registered dietitian nutritionist (RDN). In order to be approved for registration examination eligibility with a bachelor's degree, an individual must meet all eligibility requirements and be submitted into CDR's Registration Eligibility Processing System (REPS) before **12:00 midnight Central Time, December 31, 2023**. For more information about this requirement visit CDR's website: <https://www.cdrnet.org/graduatedegree>. In addition, CDR requires individuals complete coursework and supervised practice in program(s) accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Graduates who successfully complete the ACEND-accredited dietetic internship program at Texas Health Presbyterian Hospital Dallas are eligible to apply to take the CDR credentialing exam to become an RDN.*

Program Mission

The mission of Texas Health Presbyterian Hospital Dallas's Dietetic Internship Program is to provide the intern the opportunity to learn in a continuous process and develop the skills necessary to become a competent entry-level registered dietitian to improve the health of the people in the communities we serve.

Program Goals

The Texas Health Dallas Dietetic Internship program has two primary goals and associated outcomes. Program outcomes data are available upon request.

Goal #1: To prepare program graduates to be competent entry-level registered dietitian nutritionists. This is measured by the following standards:

- At least 80% of program interns complete program requirements within 13.5 months (150% of the program length).
- One hundred percent of program graduates take the CDR credentialing exam for dietitian nutritionists within 12 months of program completion.
- When surveyed 9-12 months after employment, at least eighty percent of employers will rate being "satisfied" to "very satisfied" with graduates' preparation for entry-level practice.
- The program's one-year pass rate (graduates who pass the registration exam within one year of first attempt) on the CDR credentialing exam for dietitian nutritionists is at least 80%.
- When surveyed 9-12 months after employment, at least eighty percent of program graduates will rate themselves as "prepared" to "well prepared" for entry level practice.

Goal #2: To produce leaders who improve the health of the community. This is measured by the following standards:

- Of graduates who seek employment, 80% are employed in nutrition and dietetics or related fields within 12 months of graduation.
- At least 40% of graduates participate in community service activities after internship program completion voluntarily.
- At least 60% of graduates participate in professional organizations or their events.

Program Information

Texas Health Presbyterian Hospital Dallas’s Dietetic Internship Program accepts six dietetic interns. Our small class size provides students with one-on-one training in all rotations. Our internship program provides training in clinical, food service and community dietetics. Interns will also attend classes taught by dietitians, physicians, respiratory therapists, and other guest speakers to gain advanced knowledge.

The first week is general orientation including hospital orientation, hospital tours, review of policies and procedures, classes and course work. Two additional weeks include clinical orientation. Students will also be given individualized training with the electronic medical record during orientation. This provides students with increased confidence upon entering clinical rotations.

Rotations will begin after orientation. Three students will start clinical rotations and the other three students will start food service and/or community rotations. At the completion of clinical rotations, each intern will prepare a research-based case study to present to staff and fellow interns. At the end of food service rotations, each intern will prepare an administrative or quality improvement food service project.

Program Rotations

The nine-month experience is spent in clinical, food-service-management and community rotations. Rotations increase in difficulty as the year progresses. Interns spend the majority of their rotations at the main Dallas hospital campus under the direction of experienced dietitians. In addition to rotations at Texas Health Dallas, the intern will experience rotations at other locations in the Dallas Metroplex.

Clinical rotations may include, but are not limited to:

- Cardiology
- Gastrointestinal Disease
- Medical Surgical
- Neonatology Intensive Care (NICU)
- Neurology
- Nutrition Support – Critical Care
- OB/GYN
- Oncology – Inpatient and Outpatient
- Pediatrics
- Psychiatry
- Rehabilitation
- Trauma
- Wound Care

Clinical Rotation Sites

Texas Scottish Rite Hospital for Children

www.tsrhc.org

Scottish Rite was established in 1921 and is one of the nation's leaders in pediatric orthopedic conditions. Texas Health Scottish Rite treats children with conditions such as scoliosis, hip disorders, limb length differences, as well as certain related neurological and learning disorders.

Administrative/Food Service

Administrative and Food Service experiences at Texas Health Dallas provide dietetic interns with many opportunities to have a comprehensive experience of management and administration from supervisors to senior director. Management rotations occur in a variety of environments including:

- Patient meal services
- Production
- Purchasing
- Café Retail
- Technology
- Clinical Nutrition Management
- Director and Senior Director Shadow

Community

Dietetic interns spend time at various organizations in the Dallas area, learning how an RDN can help improve the health of their communities. These experiences help them develop the cultural competency and skills necessary to provide nutritional education to the public.

Community Dietetics Rotation Sites

Visiting Nurse Association - Meals on Wheels

[Visiting Nurse Association](#)

VNA's Meals on Wheels program provides a hot, nutritious, home-delivered midday meal to Dallas County residents who are unable to provide or prepare their own meals due to illness, advanced age or disability.

Texas Health Finley Ewing Cardiovascular and Fitness Center

<http://www.texashealth.org/dallas-fitness>

Interns will be actively involved in nutrition and wellness as they work with exercise physiologists and the dietitian at the fitness center.

Garland ISD Employee Wellness

<https://www.garlandisd.net/content/employee-wellness>

The GISD employee wellness program offers resources to promote GISD employee health and well-being by providing various activities such as health fairs, educational campaigns, etc. Interns will assist developing educational material and coordinating events.

Paragon Healthcare, Inc.

www.paragonhealthcare.com

Paragon Healthcare is a diversified-services organization whose focus is on infusible and injectable pharmacy services in an alternate-site setting that offers comprehensive and streamlined solutions to patients as well as insurers and health-care providers.

Neva Cochran, MS, RDN, LD, FAND

www.nevacochranrd.com

Neva Cochran is a nutrition communications consultant to food, nutrition and agriculture organizations and companies. With more than 30 years of experience as a registered dietitian nutritionist, 20 years as a magazine nutrition writer and researcher, and a veteran of over 1000 media interviews, she is skilled at translating scientific nutrition information into easy-to-understand messages that consumers can use to enjoy eating and improve health. A longtime professional leader, she has served as president of the Dallas and Texas Academies of Nutrition and Dietetics, Academy's House of Delegates member, national media spokesperson, Academy Foundation Chair and on the Academy Board of Directors. She was the 2012 recipient of the Academy's Medallion Award and a 2016 recipient of the Texas Academy's Outstanding Preceptor Award.

Jennifer Neily, MS, RDN, LD, FAND

NeilyonNutrition.com

Award-winning registered dietitian nutritionist and Wellcoach® Certified Health Coach, Jennifer Neily—Neily on Nutrition—helps people improve health, age gracefully, and have abundant energy to live the lifestyle of their dreams. After seven years as a dietitian at Parkland Hospital, Neily worked over five years at the world-renown Cooper Clinic. Since 2009 she has been in private practice: coaching, public speaking, writing, teaching, working with the media and in social media providing unbiased relevant health and nutrition information.

Graduate Credit

Graduate school is not a requirement of the dietetic internship. Interns are provided the option to earn graduate credit through Texas Woman's University (TWU) for their dietetic internship experience and grades are based on their performance as an intern. Up to nine hours of graduate credit is earned for completing the requirements of the internship program. No additional classwork is required. Financial assistance is available through TWU. Interested students must be accepted into the graduate program and register for the graduate credit prior to start of the semester. Students are responsible for paying TWU tuition and fees associated with graduate courses.

Scholarships and Financial Aid

The Academy of Nutrition and Dietetics (AND) and state dietetic association such as the Texas Academy of Nutrition and Dietetics (TAND) provide scholarship funds for dietetic interns. Please refer to their websites for eligibility requirements and application deadlines.

Interns at Texas Health Dallas are not eligible for federally funded student loans. The internship director is available to write letters requesting student-loan deferment during internships.

Program Calendar

This general calendar provides an idea of the yearly cycle of the DI program. Interns will have a rotation-driven schedule. On-duty hours will vary based on preceptors and assignments.

Event	Dates (*subject to change)
Beginning of the program	September 12, 2022
Thanksgiving holiday	Thursday and Friday of Thanksgiving week
Winter Break	2 weeks over Christmas and New Year
Spring Break	1 week in March
Program Completion	May 5, 2023

Estimated Internship Expenses

The following expenses are approximate.

Item	Cost	Notes

RD Exam	\$200	Registration exam for <i>when program is complete</i> .

Liability Insurance	\$26	Professional liability insurance
Graduate Credits – Up to 9 hrs (<i>optional</i>)	In-State: \$284/credit hour Out-of-State: \$692/credit hour	Costs are approximate and based on 9 hours at Texas Woman’s University
<i>Other personal expenses to be mindful of include car maintenance, car insurance, gas and food. *Expenses are estimates only.</i>		

PERSONAL REQUIREMENTS

Health

High energy level is essential for keeping up with the rigor of classwork and facility training. Interns provide an example of health to others and serve as role models for the dietetic profession. The hospital’s Employee Health Service provides limited services, but all medical care is the responsibility of interns. Medical insurance is necessary. Extended illnesses may require the extension of rotations beyond the announced program completion date. Missed objectives require additional make-up hours.

Professional Dress

Interns are always expected to maintain a professional standard of dress and conform to the established dress code during the rotations. Dress codes are clarified for each rotation. Interns must wear business-style clothing at our facilities due to a strictly enforced dress code. Scrubs and slip-resistant shoes are required for the foodservice rotation. Sturdy closed-toe shoes are always required for health and safety reasons. Flat shoes are required for all rotations.

Working during the Internship

Due to the intensity of the dietetic internship program, outside employment is not encouraged. If a student decides to hold a job during the internship, it must not conflict or affect the effort needed to complete the internship. Work schedule needs to be flexible. Outside employment should not infringe on the intern's ability to excel in the program. The intern should be rested, prompt and be prepared for intern experience.

Housing/Transportation

Interns are responsible for their own living arrangements and expenses. Many options are available for housing near the hospital. Information about apartments in Dallas can be found through a search for "Dallas apartments" and "75231" (the hospital ZIP code) and will yield many websites to match search criteria. Upon entering the program, interns wishing to room with another intern can be put in contact with each other.

Interns should have access to dependable transportation to complete rotations. A car is required. Transportation to external facilities is the responsibility of the interns. Many facilities are not accessible by public transportation

(Dallas Area Rapid Transit (DART)). Interns may use public transportation for some rotations to avoid traffic congestion and parking limitations, but several rotations sites cannot be reached without a personal vehicle. Free parking is available at several hospitals, but any other parking fees are the responsibility of the intern.

Health Insurance Options

Health insurance through Texas Health Dallas is not available to interns. It is the responsibility of interns to obtain their own health insurance. Options include the following:

- The Patient Protection and Affordable Care Act extends health-care coverage to young adults under their parents' health care plan through age 26. Young adults are eligible for this coverage regardless of any, or a combination of any, of the following factors: financial dependency, residency with parent, student status, employment status and marital status.
- Private or group health insurance
- Extended coverage through a college or university
- Coverage through TWU (if enrolled for graduate credit)

APPLICATION PROCESS

Selection Criteria

- Bachelor's degree and completion of an ACEND approved didactic program by program start date
- Verification Statement of Completion of ACEND accredited Didactic Program requirements
- Minimum cumulative grade point average: 3.0; Science GPA minimum: 2.75; DPD GPA minimum: 3.3 (All based on 4.0 system.)
- Reference letters from 2 professors and 1 current or recent employer
- Personal statement (1,000 words or less)
- Work experience in foodservice, hospital, nutrition-related field and/or customer service
- Submission of supplemental application and professional handwritten letter (see last page of packet)
- Video interview for selected applicants– *student will receive email with time frame for interview*

Application

Texas Health Presbyterian Dietetic Internship participates in the Dietetic Internship Centralized Application Service (DICAS). The DICAS portal may be accessed at <http://portal.dicas.org>. Complete the web application according to DICAS instructions by designated deadline.

Applicants should submit a personal statement of 1,000 words or less through DICAS and address the following:

- Why do you want to enter the dietetics profession?
- Discuss experiences that have helped to prepare you for your career.
- What are your short-term and long-term goals?
- What are your strengths and weaknesses (or areas needing improvement)?

If you have additional questions regarding the online application process, email DICASinfo@DICAS.org or call customer support at 617-612-2855. More information may be found on ACEND's website at <https://www.eatrightpro.org/>.

The fee to use DICAS is \$50 for the first DI program application and \$25 for each additional DI program application.

Sending Transcripts

Review DICAS website for detailed instructions to ensure transcripts are properly matched to application. Send transcripts by mail to the following address

DICAS Transcript Processing Center
P.O. Box 9118
Watertown, MA 02471

Sending Transcripts Electronically

DICAS only accepts transcripts from Credentials Solutions and Parchment. If service is not available, transcripts must be sent by mail.

When completing the application form, enter the names and contact information of each of your three references. The Texas Health Presbyterian Dallas Dietetic Internship requires two professor references and one employer reference.

D&D Digital Matching

Applicants must also register online for computer matching and rank the dietetic internship programs by **11:59 p.m. Central Time on February 15, 2022**. There is a \$55 computer-matching fee. For additional information, please visit the D&D website at <http://www.dnndigital.com>.

Texas Health Dallas Supplemental Application & Fee

Texas Health Presbyterian application fee of \$100.00 should be mailed with the Supplemental Internship Application and handwritten professional letter. The Supplemental Application is located on the last page of this information packet. The professional letter should be clear and professional.

The application must be mailed directly to the Texas Health Dallas Internship Program and postmarked no later than February 15, 2022. The (\$100) application fee is a separate fee from DICAS and D&D Digital.

TIMELINE

Before You Apply:

- Obtain current application materials from the selected dietetic internships.
- Discuss the application materials with your didactic program director if possible.
- Request the Declaration of Intent to Complete Academic Requirements form or the Verification Statement of Academic Requirements form from your didactic program director. Your didactic program director will

complete this form online. A hard copy of your verification statement will be mailed to the internship after your acceptance.

- Request references from advisor/faculty/employers and submit official transcripts to DICAS.

Application Phase:

- Complete an online DICAS application by February 15, 2022.
- Register for computer matching with D&D Digital Systems at www.dnddigital.com by **11:59 p.m. Central Time on February 15** and pay the \$55 registration fee online by credit card.
Important Note: Applicants should select DI priorities carefully; no changes will be accepted by D&D Digital Systems after the deadline
- Mail the Supplemental Internship Application Form, professional letter and check to Texas Health Dallas, postmarked by February 15, 2022.

Appointment Phase:

Applicants who receive a computer match are responsible for accepting or rejecting the match by telephone on the appointment date by 5 p.m. Applicants who submitted Declaration of Intent to complete forms with their applications must obtain signed DPD Verification Statements from their DPD program directors and official transcripts documenting completion of their bachelor's degrees prior to beginning dietetic internships.

Accepted Applicants:

Matched applicants will contact program director within 24 hours of notification.

Contact information:

Bielca Soza MS, RD, LD

Office phone: 214-345-7558

Email: Bielcasoza@texashealth.org

Please e-mail your confirmation and include a contact number to the director.

All accepted applicants must successfully pass a background check and a drug screening prior to program entry.

Texas Health Dallas is an equal-opportunity institution with regard to employment and admission.
