About Texas Health Mansfield

Texas Health has joined with AdventHealth to build a new health care campus in Mansfield. The 4-story, 195,400-square-foot community hospital is now open.

Designed to be a destination for the residents of Mansfield and surrounding communities, the hospital campus also includes an 80,000-square-foot medical office building that houses primary care and specialty practices, as well as an outpatient center that offers lab, therapy, and imaging services.

The 38-acre campus is located on the southeast corner of U.S. Highway 287 and Lone Star Road in Mansfield.
