

## Library Services

THR has access to several databases. Within the THR intranet click on Clinical (in the top green banner) → Medical Library or <https://txhealth.sharepoint.com/SitePages/Medical-Library.aspx>

To access the UTSW Library and available databases, you must first obtain a UTSW username and password. Complete the “**eResearch Access Request** form” and return the completed form to [ResearchAccessRequests@TexasHealth.org](mailto:ResearchAccessRequests@TexasHealth.org).

Then you may go directly to UTSW’s Library page <https://library.utsouthwestern.edu/main/>

The locked databases will require you to input your username and password to access them.
