A Health Information Exchange (HIE) is an organization that oversees and governs the exchange of health related information among organizations according to nationally recognized standards. A Health Information Exchange is an electronic health information system that stores your patient health information from multiple healthcare providers participating in the HIEs. It allows your other health care providers to view your past health information for continued care and other uses included in the provider's Notice of Privacy Practices. I understand that I may revoke this authorization in writing at any time except to the extent that action has been taken in reliance upon this authorization. I may submit a revocation request to the above provider for processing. This authorization will remain in effect indefinitely, unless I revoke it in writing.
